# Introduction

## DESCRIPTION OF THE REPORT

This is the fifth year the National Indian Health Board has produced reports on American Indian/Alaska Native (AI/AN) enrollment. This year's report continues the comparison of current year estimates of Medicaid enrollment, Medicare enrollment, population, and uninsured, to estimates from 2012, which was the year prior to the full implementation of the Affordable Care Act in 2013. The report is consistent across the states, providing the same information for each state.

The first page of each state's report provides an update on AI/AN population for the state. The report then includes enrollment and changes in enrollment for Medicaid, Medicare, and Uninsured from 2012 to 2020. It also includes the proportion of American Indians/Alaska Natives (AI/AN) enrolled over time from 2012 to 2020.

The second page of the report focuses on the 2020 data (using the 5-year data) and provides the total Medicaid enrollment by age (0-18, 19-64, and 65 and up) as well

as sex (Male/Female). The percentage of total enrolled AI/ANs in Medicaid by the age and sex groups is also included in both a pie chart and table. The same information is presented in two forms to provide a variety of visual presentations for the reader and remain Section 508 Compliant.<sup>1</sup> Finally, the last table provides the number of AI/ANs uninsured by age group (0-18, 19-64, and 65 and up) as well as the percentage by age of those uninsured.

## DATA DESCRIPTION: AMERICAN COMMUNITY SURVEY DATA

This report utilizes the American Community Survey (ACS), 5-year estimates.<sup>2</sup> The 5-year estimate data represents data collected over a period of the preceding five years. For example, the 2020 ACS 5-year estimate data includes survey data from 2016-2020 and the 2012 ACS 5-year estimate data includes survey data from 2008-2012. The 5-year estimates have increased statistical reliability for small population subgroups over the one-year data.<sup>3</sup>

## **POPULATION DEFINITION, SAMPLING ERROR, AND OMITTED VARIABLES**

Data are based on a sample and are subject to sampling variability. The data in this report are reported without the margins of error. Every estimate has a sampling error. The American Indian/Alaska Native population is reported as the people who are American Indian or Alaska Native alone or in combination with one or more races. Foreign born are included in the AI/AN population estimates within this report. Due to the inability to verify data with the Indian Health Service, the “access to IHS” variable has not been included in this report.

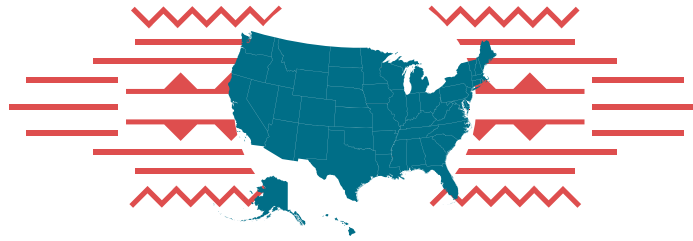

## **ACKNOWLEDGEMENTS**

This report has been presented to the Tribal Technical Advisory Group (TTAG) Data Subcommittee and an audience at the National Tribal Health Conference (NTHC) in September 2022. The feedback of both groups is much appreciated. In addition, Wendy Hildt, Division of Tribal Affairs, Center for Medicare & Medicaid Services, provided key information regarding 508 Compliance and design. NIHB colleagues Carrie Field,

Jamie Gomez, and Tyler Dougherty contributed important input about the data to include and the best chart designs to display the information. Dr. Cheng Wang, Biostatistician for the Great Plains Tribal Leaders’ Health Board and CDC Foundation, provided both invaluable technical support to automate the creation of tables and conversation about the presentation and interpretation of the data.

## **FUNDING FOR THE REPORT**

This publication was supported by the Centers for Medicare and Medicaid Services (CMS) of the U.S. Department of Health and Human Services (HHS) as part of a financial assistance award of \$800,000 with 100 percent of the funding by CMS/HHS. The contents are those of the author and do not necessarily represent the official views of, nor an endorsement, by CMS/HHS, or the U.S. Government.

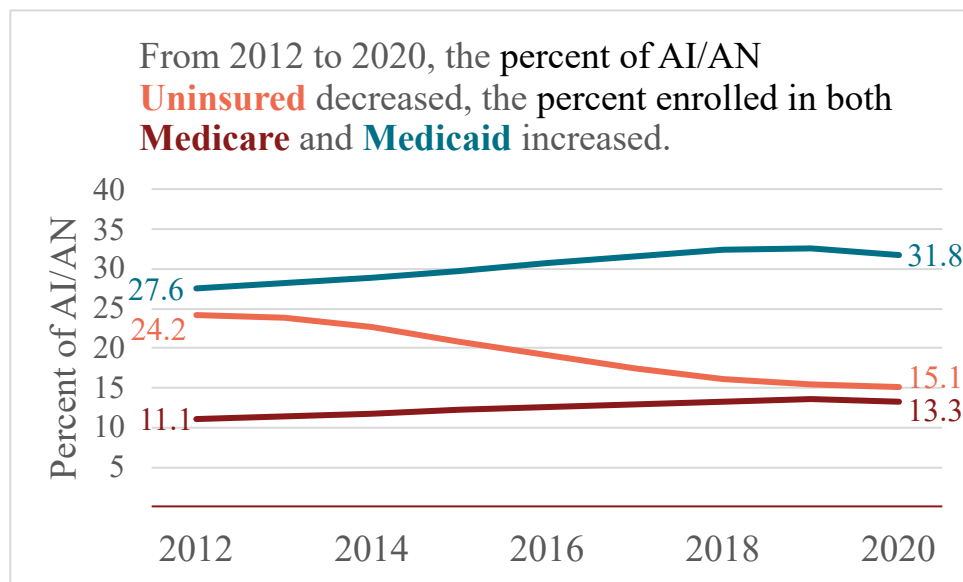

# UNITED STATES

## The United States' Key Comparisons from 2012 to 2020: Population

- » From 2012 to 2020, AI/AN population in the United States grew by 14.2 percent from about 5.04 million to about 5.76 million. In comparison, the United States total population grew by 5.6 percent from 2012 to 2020.
- » In 2020, the AI/AN population in the United States was 1.76 percent of the total US population.

## Enrollment in Medicare, Medicaid, and Uninsured from 2012 to 2020

AI/AN ENROLLMENT	2012	2020	CHANGE	PERCENTAGE CHANGE
Medicare	557,388	767,298	209,910	37.7
Medicaid	1,390,355	1,831,875	441,520	31.8
Uninsured	1,219,892	869,817	-350,075	-28.7

- » The percentage of AI/AN enrolled in **Medicare** rose by 2.2 percentage points from 11.1 to 13.3 percent.
- » The proportion of AI/AN enrolled in **Medicaid** has increased by 4.2 percentage points from 27.6 to 31.8 percent.
- » The proportion of AI/AN **Uninsured** fell by 9.1 percentage points from 24.2 to 15.1 percent.

TOTAL NUMBER OF AI/ANS ENROLLED IN MEDICAID IN 2020_UNITED STATES			
AGE	MALES	FEMALES	TOTAL

Total	869,817	100

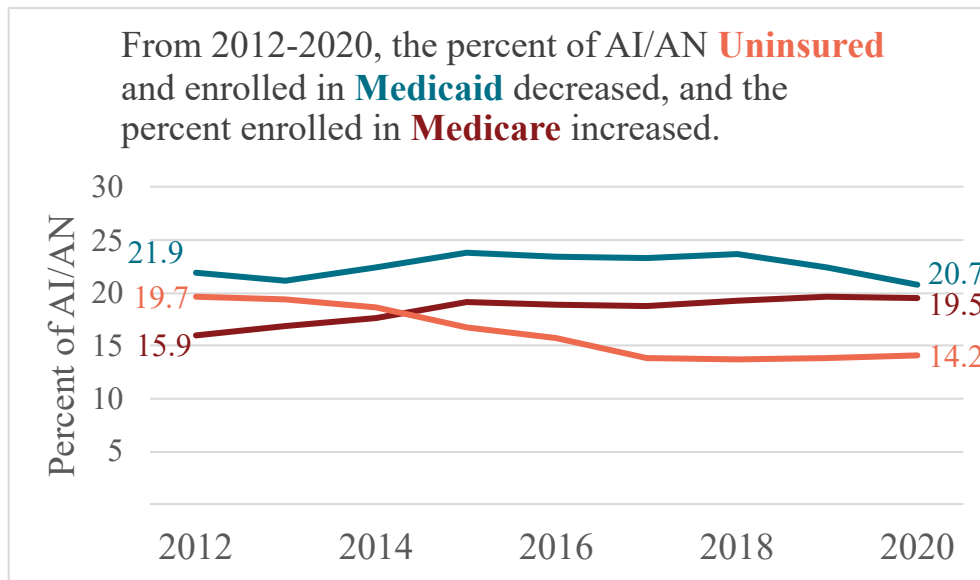

# ALABAMA

## Alabama's Key Comparisons from 2012 to 2020: Population

- » From 2012 to 2020, Alabama's AI/AN population grew by 7.4 percent from about 57,300 to 61,500.
- » In 2020, Alabama's AI/AN population was 1.3 percent of the state's total population.
- » In 2020, Alabama's AI/AN population was 1.1 percent of the total US AI/AN population.

## Enrollment in Medicare, Medicaid, and Uninsured from 2012 to 2020

AI/AN ENROLLMENT	2012	2020	CHANGE	PERCENTAGE CHANGE
Medicare	9,127	12,013	2,886	31.6
Medicaid	12,548	12,746	198	1.6
Uninsured	11,266	8,710	-2,556	-22.7

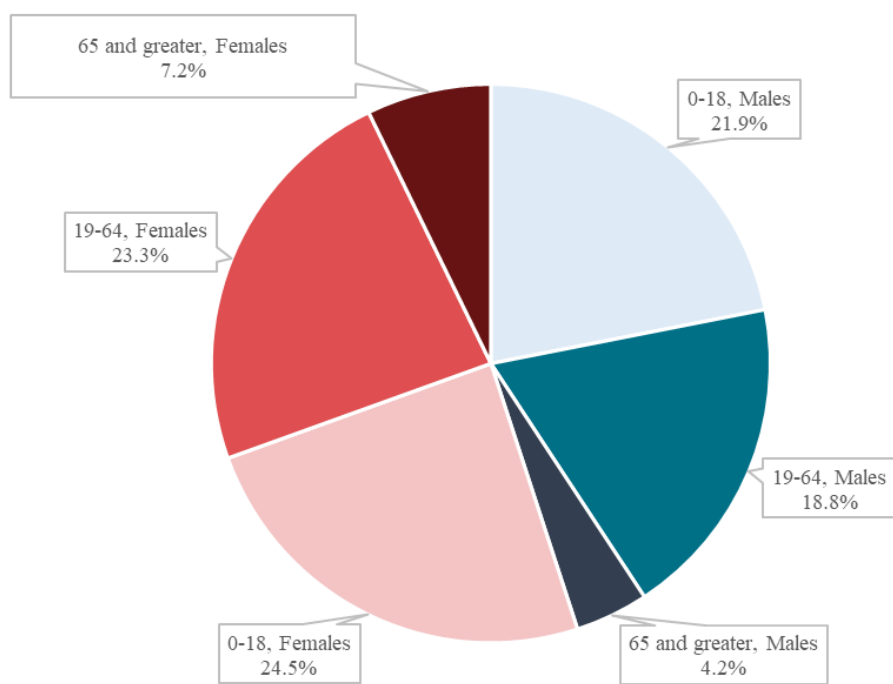

- » The percentage of AI/AN enrolled in **Medicare** rose by 3.6 percentage points from 15.9 to 19.5 percent.
- » The proportion of AI/AN enrolled in **Medicaid** decreased by 1.2 percentage points from 21.9 to 20.7 percent.
- » The proportion of AI/AN **Uninsured** fell by 5.5 percentage points from 19.7 to 14.2 percent.
- » Medicaid expansion has not been adopted in Alabama.

# ALASKA

## Alaska's Key Comparisons from 2012 to 2020: Population.

- » From 2012 to 2020, Alaska's AI/AN population grew by 5.5 percent from about 137,700 to 145,300.
- » In 2020, Alaska's AI/AN population was 19.7 percent of the state's total population.
- » In 2020, Alaska's AI/AN population was 2.5 percent of the total US AI/AN population.

## Enrollment in Medicare, Medicaid, and Uninsured from 2012 to 2020

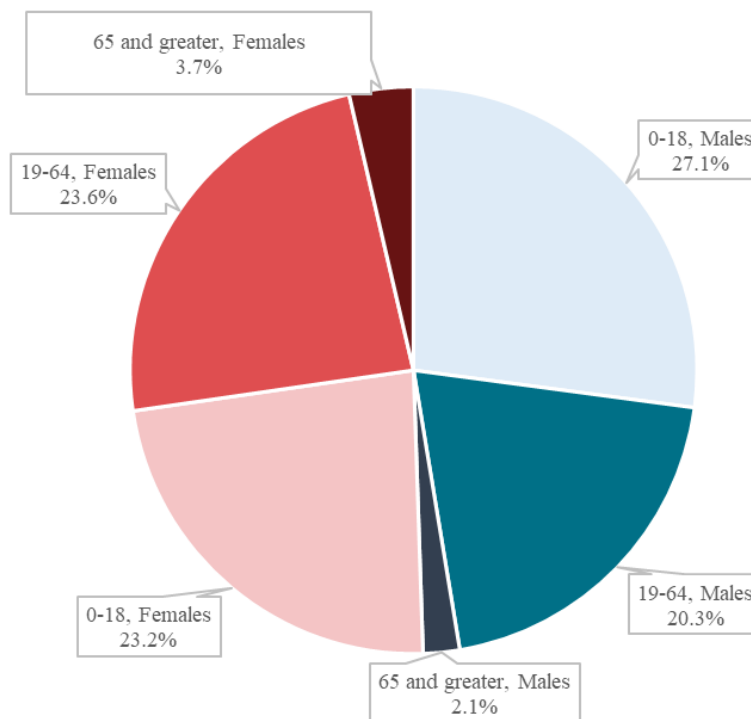

AI/AN ENROLLMENT	2012	2020	CHANGE	PERCENTAGE CHANGE
Medicare	10,700	13,787	3,087	28.9
Medicaid	40,794	58,478	17,684	43.3
Uninsured	49,970	33,720	-16,250	-32.5

- » The percentage of AI/AN enrolled in **Medicare** rose by 1.7 percentage points from 7.8 to 9.5 percent.
- » The proportion of AI/AN enrolled in **Medicaid** increased by 10.6 percentage points from 29.6 to 40.2 percent.
- » The proportion of AI/AN **Uninsured** decreased by 13.1 percentage points from 36.3 to 23.2 percent.
- » Medicaid expansion was adopted 9/1/2015. The largest annual increase in AI/AN Medicaid enrollment was about 4,700 from 2015 to 2016.

**TOTAL NUMBER OF AI/ANS ENROLLED IN MEDICAID IN 2020\_ALASKA**

AGE	MALES	FEMALES	TOTAL

# ARIZONA

## Arizona's Key Comparisons from 2012 to 2020: Population

- » From 2012 to 2020, Arizona's AI/AN population grew by 19.5 percent from about 341,050 to about 407,600.
- » In 2020, Arizona's AI/AN population was 5.7 percent of the state's total population.
- » In 2020, Arizona's AI/AN population was 7.1 percent of the total US AI/AN population.

## Enrollment in Medicare, Medicaid, and Uninsured from 2012 to 2020

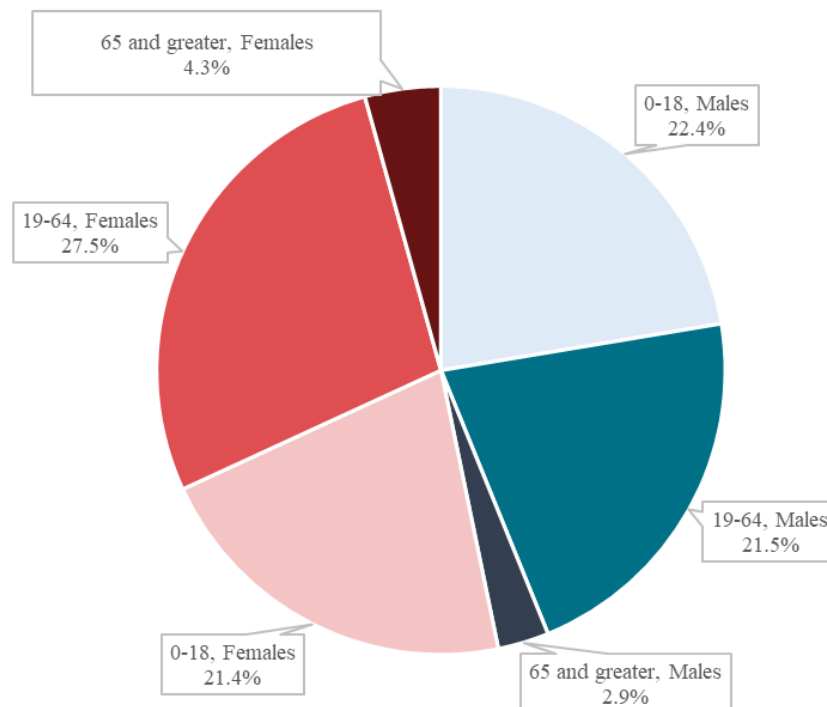

AI/AN ENROLLMENT	2012	2020	CHANGE	PERCENTAGE CHANGE
Medicare	30,235	44,471	14,236	47.1
Medicaid	127,889	160,920	33,031	25.8
Uninsured	100,434	84,534	-15,900	-15.8

- » The percentage of AI/AN enrolled in **Medicare** rose by 2 percentage points from 8.9 to 10.9 percent.
- » The proportion of AI/AN enrolled in **Medicaid** increased by 2 percentage points from 37.5 to 39.5 percent.
- » The proportion of AI/AN **Uninsured** fell by 8.7 percentage points from 29.4 to 20.7 percent.
- » Medicaid expansion was adopted 1/1/2014. The largest annual increase in AI/AN Medicaid enrollment was about 9,200 from 2017 to 2018.
